

**The 4th Brain Tumors 2018: From Biology to Therapy Conference, Warsaw,  
21-23 June 2018, Nencki Institute**

Meeting Sponsored by EACR (European Association for Cancer Research)

**CONFERENCE PROGRAM – DAY 1**

**THURSDAY, 21 June 2018**

<b>11.00-13:00</b>	<b>Registration and welcome coffee</b>
<b>13.00-14:00</b>	<b>Keynote lecture: Luis F. Parada</b> (Memorial Sloan Kettering Cancer Center, New York, USA)  The role of cell of origin and cancer stem cells in GBM Phenotype  <b>EACR sponsored lecture</b>
<b>14:00-17:50</b>	<b>Brain tumor pathobiology and diagnostics</b> (chairs: Dolores Hambardzumyan, S. Nawrocki)
<b>14:00-14:40</b>	<b>Dinorah Friedmann-Morvinski</b> (Tel Aviv University, Israel) Cell state reprogramming and oncogene-induced plasticity in glioblastoma
<b>14:40-15:20</b>	<b>Gabriele Bergers</b> (University of Leuven, Leuven, Belgium) Glioma heterogeneity in space and time
<b>15:20-16:00</b>	<b>William Leenders</b> (Radboud University Medical Centre, Nijmegen, Netherlands) Quantitative targeted next generation RNA sequencing to identify aberrant biology in glioma: its value for molecular diagnosis, prognosis and personalized therapy predictions
<b>16:00-16:30</b>	Coffee break
<b>16:30-17:10</b>	<b>Katrin Lamszus</b> (Universitätsklinikum Hamburg-Eppendorf; Hamburg, Germany) Single cell tracking analysis of the clonal architecture and clonal immunoediting in gliomas using optical barcoding
<b>17:10-17:50</b>	<b>Geoffrey J. Pilkington</b> (Brain Tumour Research Centre, University of Portsmouth, UK)  Three dimensional human in vitro models pave the way for drug delivery and fast tracking of repurposed and reformulated drugs to clinic in neuro-oncology
<b>18:00-21:00</b>	<b>Concert and Welcome reception (CENT-UW)</b>

## CONFERENCE PROGRAM – DAY 2

Friday, 22 June 2018

9:00–16:20	<b>Glioma immunology and immunotherapy</b> (chairs: Christel Herold-Mende, Aleksandra Ellert-Miklaszewska)
9:00–9:40	<b>Helmut Kettenmann</b> (Max Delbrück Center, Berlin, Germany) Mechanisms of microglia/brain macrophage interaction with glioma
9:40–10:20	<b>Bozena Kaminska</b> (Nencki Institute, Warsaw, Poland) Targeting glioma-microglia communication
10.20–10.50	<b>Coffee break</b>
10.50-11.30	<b>Bjarne Winther Kristensen</b> (University of Southern Denmark, Odense, Denmark) Tumor associated microglia/macrophages in gliomas - a critical player in the tumor microenvironment
11:30–12:10	<b>Dolores Hambardzumyan</b> (Emory University, School of Medicine, Atlanta, USA) Genetic driver mutations and immune microenvironment in GBM
12:10–12.50	<b>Christel Herold-Mende</b> (University of Heidelberg, Germany) T cell target antigens and immunobiology of gliomas
12:50 – 13:00	<b>Oral presentations: Pilar Gomez, Jaione Auzmendi</b>
13.00-13.50	<b>Lunch break and ROCHE lecture</b> 'Easy, fast and high throughput method of targeted sequencing - Roche HyperCap 2.0'
13:50–14:30	<b>Michael Platten</b> (University Hospital Heidelberg and German Cancer Research Center, Germany) Determinants of response to checkpoint blockade in glioma
14:30-15:10	<b>Simone Niclou</b> (NorLux Neuro-Oncology Laboratory, Luxembourg Institute of Health, Luxembourg) Stem cell-associated heterogeneity in glioblastoma results from intrinsic tumor plasticity shaped by the microenvironment
15:10–15:40	<b>Coffee break</b>
15:40–16:20	<b>Tambet Teesalu</b> (University of Tartu, Tartu, Estonia) Homing peptides for glioma targeting: discovery and applications for precision guided drug delivery
16:20–17.00	<b>Oral presentations: Gray Kueberuwa, Silvia Anna Ciafrè, Rainer Glass, Prerna Magod</b>
17:00–19:00	<b>Poster session (wine and cheese by the posters)</b>
20:00-23:00	<b>Gala dinner (by invitation)</b>

**CONFERENCE PROGRAM – DAY 3****SATURDAY, 23 June 2018**

<b>9:00–13:00</b>	<b>Brain tumor pathobiology and diagnostics (chairs B. Kaminska, M. Zabek)</b>
<b>9.00-9.40</b>	<b>Maria G. Castro</b> (University of Michigan, USA) Epigenetic reprogramming in mutant IDH1 glioma mediates ATM upregulation and DNA damage response: therapeutic implications
<b>9:40–10:20</b>	<b>Massimo Squatrito</b> (Spanish National Cancer Research Center, Madrid, Spain) - TRKing down novel therapeutic targets in gliomas
<b>10:20-11.00</b>	<b>Daniel A. Lim</b> (University of California, San Francisco, USA) Long noncoding RNAs (lncRNA) as therapeutic targets in glioma
<b>11.00-11.30</b>	<b>Coffee break</b>
<b>11.30–12.10</b>	<b>Waldemar Priebe</b> (MD Anderson Cancer Center, University of Texas, Houston, USA) Multitargeted approach to CNS malignancies
<b>12.10-12.30</b>	<b>Angela J Waanders</b> The Children’s Brain Tumor Tissue Consortium (Children Hospital in Philadelphia, USA) Current Landscape: CBTTC International Pediatric Brain Tumor Collaborative Research Consortia
<b>12.30-12.50</b>	<b>Bartosz Wojtas</b> (Nencki Institute/Polish Network for Glioma therapy) Target sequencing of 700 cancer related genes reveals novel targets for glioma therapy
<b>12.50-13.00</b>	<b>Closing remarks</b>
<b>13.00-14.00</b>	<b>Lunch break</b>
	<b>DEPARTURE</b>
